

Webinar: Introducing Moodle Quizzes

Objective

Creating quizzes not only allows gives your students the flexibility of taking a Quiz online, but using the built in tools allows you to grade parts of the Quiz automatically, provide detailed feedback to students and randomize question sets for students. This Webinar is intended to introduce instructors to using the quizzing tool in Moodle to assess student performance. We will demonstrate how to create a quiz and choose options that would address academic honesty, ensure students can complete quizzes successfully, and optimize student experience. This Webinar will focus on the technical considerations as well as the best practices.

Duration

1hr 30mins

Pre-Requisites

Participants should be comfortable using an Internet browser.

Participants must be familiar with using Moodle as this Webinar will not cover basic navigation in Moodle. You can familiarize yourself with the Moodle 'Essentials' at <http://moodle.yorku.ca/instructors/training.htm>

Note: This Webinar will be conducted through Adobe Connect Pro. We encourage you to register for this event since instructions will be sent out once registration is confirmed to advise you on how to optimize your Webinar experience.

Course Outline
